Striper Fishing the LIR

Rusty Appleton Spin fishing when I started catching them. I gave it a try with flies at first, but was having a hard time with the boat, getting the bait down enough and dealing with all the trash in the water .

1 Gore Landing boat ramp

We were headed upstream in the channel that cuts across from the main river before you get to the gravel pit and spits you back out on the main channel upstream. They were absolutely stacked up in the mouth of this fork. We tied up to a tree and worked the deep part between and underneath the overhanging trees. We saw them busting trout in some of the riffles in some of the shallow areas right where the stream forks. They are all over in there. We caught tons of 4-5 pounders. Hope this helps.

2 Road north off Hwy 64. It goes north across the LIR from the place Rusty is talking about.
