- 5 Drive east to the river**
35.53006 -95.08172
35.53252 -95.08310

My favorite spot is way downstream just above Gore Landing. If you head from Gore Landing towards Marvel, take the first dirt road on the right. You'll see some public hunting signs hanging on trees. Follow it straight back and you'll hit the river. If you take the right at the power lines just before the river, there's a parking area. Upstream from there are some excellent holes when they aren't generating. You won't catch as many trout, but the ones you do catch are big. Be prepared for other species to.
